

THE CIRCUIT CLUBS

The A. B. C.s leave Kansas City Friday and journey on to Omaha, Neb., where they hook up with the Armours of the City League. The Indiana gang are one of the best road clubs on the circuit and with Charleston, Day, Red Taylor and other stars going good the A. B. C.s are drawing big everywhere. Omaha expects to break all attendance records Saturday and Sunday.

The Cuban Stars will be the next team to play at Kansas City. They open there Saturday, play Sunday and three other days. The Cubans have a great team and despite the difficulty that the new Cubans are having in getting in touch with the methods of the circuit teams they are putting up a creditable showing. Captain Mendez, Portunda and Rodriguez will have a real job on hand when their countrymen show up at Kansas City June 6.

The Dayton Marcos, the only circuit gang able to down the American Giants, will try conclusions with Blount's Detroit Stars, starting Satur-

day, going through Sunday and for three more days. The Marcos have a team of college players. They are fast, can hit, have a fine staff of pitchers and are dangerous contenders for the new circuit honors of supremacy.

Joe Green's Chicago Giants will journey to Milwaukee and lock horns with the great McCoy-Nolan team. Joe's crew are encountering some awful rough going, being sent out against all the best teams right at the jump-off. The weather has been against the team's training plans all spring and before Green could get his team all shaped up and running smooth they have been on the receiving end of some tough jolts. Green's new men are rounding into form and before they start on the long trip around the circuit they are expected to have recovered their real form and will catch up to the leaders. Green consoles himself over the fact that the slump of his club is no worse than the Monarchs here, the Cubans and other teams in the circuit who have lost as many as the Green crew.
